#### GCT Pain Specialtv Set

## Featured Product: Boweflow™

Boweflow™ (Xiao Cheng Qi Wan, Xiao Cheng Qi Pian, 小承气丸), is a Chinese herbal remedy that helps bowel movement to benefit abdominal distention and constipation.†

From the perspective of TCM, when food residues accumulate in the intestines, the flow of Qi (gas) in the tract is impaired, resulting in abdominal swelling and pain, gas accumulation (fart), heat accumulation, and dry stools. Fitting with this pattern of conditions are a yellow tongue coating and a rapid, slippery pulse. Bowel obstruction (intestinal obstruction) may fall in the pattern. Some IBS (Irritable Bowel Syndrome) may also belong to the same pattern.
